

**FCC Emergency Broadband Benefit (EBB) Program
Customer Election Form**

The FCC has created a federal support program for qualifying individuals for a discount up to \$50 off the monthly service price of internet broadband services. **(If you are currently a federal lifeline customer, you are pre-qualified for this program and signing this form will allow Sebastian to enroll you in the program. Once approved, Sebastian will initiate the \$50 credit on your internet service.)** As attested below, the customer has been made aware of and understands that this discount will be provided subject to the conditions below:

- A discount from the customer's broadband service rate of up to \$50 per month will be applied through the end of the program.
- No data limits will be placed on the service or charged for.
- Only one EBB discount is eligible per household. Other providers may offer this discount as well as Sebastian and the customer can transfer the discount to another provider at any time.
- The customer understands that this is a **temporary program** and the discount will apply only as long as the program is funded.
- The customer will be notified 30 days before the end of the program that the program will end.
- The customer has the option of continuing service at the regular priced rate for that service or can discontinue service without any termination charges applied
 - o Unpaid balances incurred prior to the end of the program or costs associated with unreturned equipment will still be the responsibility of the customer and must be paid.

Customer Certification: Yes, please enroll me in the EBB program. I consent for Sebastian to transmit my enrollment information to the national database administrator. I also affirm that I understand that the EBB program is a temporary federal government subsidy that reduces my monthly broadband Internet access service bill and, at the conclusion of the EBB Program, I will be subject to Sebastian's undiscounted general rates, terms, and conditions if I continue to subscribe to Sebastian broadband Internet access service. I have read and understand the conditions and would like to receive a discount up to \$50 on my monthly internet bill.

_____ I am currently a federal lifeline customer

_____ I am not a federal lifeline customer. I have completed the application and have been approved for the Emergency Broadband Benefit program through the National Verifier.

Signed _____ Date _____

Printed Name _____
